

# **NO CASINO in SCHENECTADY!**

*... don't let City Hall gamble with Schenectady's future*

## **STOP the CASINO!**

*Show Your Opposition*

### **Saturday, June 7th, 1 PM**

#### **Meeting at Arthur's Market**

35 N. Ferry St., across from Lawrence the Indian, in the Stockade -

***Our Schenectady is not a casino town. We are not willing to:***

- trade Schenectady's proud history of productive enterprise and innovation for the *non-productive* transfer of dollars from individuals to the favored "house"
- desperately *believe the easy-money promises* of developers and casino operators out of undue pessimism about our development potential
- base Schenectady's fiscal policy on *taking money from hard-workers, problem-gamblers & the vulnerable*, for the sake of uncertain amounts of added tax revenue
- *risk the health of small businesses*, which have stayed here and created jobs, by draining revenue away to the casino and a few lucky partners, who will be drawing most of their business from less than 25 miles away, not from distant high-rollers
- create a *crime magnet* that will bring more drugs, prostitution, DUI, and car break-ins, as well as *all-day traffic problems*, to nearby neighborhoods, and even threaten the residential nature of the Historic Stockade District,
