* = "Gross Gaming Revenues" in this table shall have the definition provided in PML Sec. 1301.25.

^ = A Community Impact Payment is an amount payable, in addition to any business activity or real property taxes, under a host community, community benefit or similar agreement entered into between an Applicant, Manager or any of their affiliates and the Host Village, Host City/Town and/or Host County of its proposed Gaming Facility in connection with or as a condition of such government's endorsement, approval or recommendation of the proposed Gaming Facility. Community Impact Payments include direct payments to governments as well as contractually required contributions to charitable organizations. Community Impact Payments may be required, among other mechanisms, as lump sums at certain times or upon certain conditions, as periodic fixed amounts while the Gaming Facility operates or in amounts calculated as a measure of Gaming Facility financial performance such as gross gaming revenues. Submit community impact payments due in the pre-opening period under Year 1.

VIII. Assumptions/Notes

- (1) The structure of the Applicant is a Limited Liability Corporation; therefore Corporate Profits tax is not applicable. However, to be conservative we have utilized the 7.1% tax rate for this analysis. The NY State personal income tax brackets, which cap out at 8.82%, would likely result in a rate closer to 8%. For example, a filing of \$2 million calculates to an effective rate of 7.76%.
- (2) From IMPLAN, utilizing the staffing and payroll inputs as described in the Economic Impact Analysis, Exhibit VIII.B.4
- (3) We assume Induced Incremental Economic Activity means the impacts of induced visitation in the form of casino visitors spending money in the local economy off site, not the indirect/induced household income impacts from spending by the casino/hotel and by casino/hotel employees as calculated using IMPLAN as per Exhibit VIII.B.4
- (4) As computed for hotel and food beverage/retail sales shown in row 83 using "Industry Change" function in IMPLAN and the same multipliers and methodology as per Exhibit VIII.B.4. Row 83 is based on a capture of gaming visits of 1% for hotel stays at an ADR starting at █████ consistent with current local trends and 5% for F&B/retail spend at an average starting at \$12 and growing by 2% per year.
- (5) Note, the 5.875% New York State Lodging Tax contained in the Template applies to the New York City local rate.
Lodging/bed taxes are imposed and collected by the local jurisdiction on top of sales taxes. Sales taxes total 8% in Schenectady County, 4% to the State and 4% to the County.
Schenectady County collects a 4% lodging/bed tax on hotel room revenue in addition to the sales tax. There is no State lodging/bed tax.
- (6) Based on induced incremental hotel revenues at non-casino hotels in Schenectady consistent with the hotel market assessment by REVPAR.
