(in front of MVP, 625 State Street)

Ellis Medicine is planning a merger with Trinity Health — an out-of-state mega healthcare system of 90+ hospitals. Services have already been cut — with more to come.

What's at Stake?

- ✿ Reproductive Care: contraception, tubal ligations, vasectomies, abortions and IVF
- ✿ End-of-life: patient-directed care including pain management and withdrawal of care
- ✿ Equity: Trinity's policies and cuts to services threaten gender-affirming care and will worsen care for people already facing healthcare system barriers

What Can You Do?

- ✿ Demand TRANSPARENCY!
- ✿ Demand ACCOUNTABILITY!
- ✿ Demand it IN WRITING!
